
Eric Johnsons Amazing Tone

Posted by iloveej - 2008/08/15 19:27

I love Eric's tone in Cliffs of Dover and i cant seem to get close to it. I have a spiderIII amp by line 6 and im putting this up to see if anyone can help me get there. I know theres a preset for the song...but it doesnt cut it. If anyone can tell me how to set my amp up...or any effects i should get to sound like EJ, id really appreciate ur help.
