Hi there everyone,

I just signed on and i cant wait to get started :cheer:

This seems like it is going to be so much better than just banging my head on a book trying to figure stuff out on my own.

Wow...

i have learned more from this site in 1 day and 16 hours than 6 weeks of lessons and banging my head on a book. it was so cool and inspiring i went to sam ash and got a Squire Hss fat strat starter package! LOL. it is much better than fighting with my old guitar and now that i found this site its going to be alot easier to learn!

i filled out the beginner form and submitted it and i cant wait to really start digging in!

But the only thing that was weird was when i submitted the form the page went to a new blank page...no sort of submission acknowledgement? is that normal?

LOL its not like there isnt enough to study until i hear back....

Hey Joe... Welcome to SAMI ;) I'm not part of admin or anything... Just a student like you. In the past it has been extremely difficult to build any kind of sensible rapport for any other members. I haven't seen what most of the new changes are to the site but, hopefully they took "connections" into consideration. Again, welcome ;)

neef68,

Thanks for welcoming me! :)

I was wondering if anyone was checking the boards or if the site was having server issues.

It's nice to see that it's working.

This is a great site and in a short time i have learned alot in a short period of time.

Let's hope that when all the server issues are addressed it's even better!

Thanks,

Joe
